Who takes the SAT? Why?

The SAT is a standardized test used for college admissions. Students take the SAT when they are in the Spring of 11th grade year..It is crucial to take the SAT as it broadens your options for college. The college board offers fee waivers, which eliminates the cost associated with the SAT.

Caregivers it is important to join the parent association (PA). The PA can be one of the most direct tools for parent involvement. Through the PA, caregivers can become active participants in their children's schools, and in the educational system as a whole. For example, the PA can empower parents to:

Organize, and take action on issues
Provide input on school policies
Advocate for their children
Partner with school administration and staff
